NORTH AND EAST RESPONDING.

supplies Are Being Rushed to Galveston by the Trainload.

Arrival of These Supplies Will Relieve Situation Very Materially—Quite a Large Amount of Clothing Is Included in the Shipments.

Austin. Teras. September 13.—Judging tom telegraphic messages reaching the governor from the North and East to it, supplies are hastening to Galveston to handle supplies and passengers to and from the mainland, and I enticipate that their presence there will relieve the situation very materially. Governor Sayers today received a large contribution from a party in one of the lastern States.

This afternoon the addition of this cutter to the boats already loaned by the Fuderal government will give us five boats at Galveston to handle supplies and passengers to and from the mainland, and I enticipate that their presence there will relieve the situation very materially.

Texas City.

This train brought more people than sor of the preceding relief trains, there being at least 1400 people on board. About 400 of those who arrived on last sight's train obtained transportation on some of the outgoing trains and left the city during the night.

At different times during the day three lus came in from G. veston, bringing altogether about 400 people.

As nearly as can be estimated nearly 1800 people left Galveston yesterday, and the following registered as hotels here and the different refuge halls CAPITOL HOTEL
